

## From the home page to exam technique

The **exam technique** section offers a bank of useful resources for each product to support your students through the exam period – from revision, to exam preparation, through to exam day.

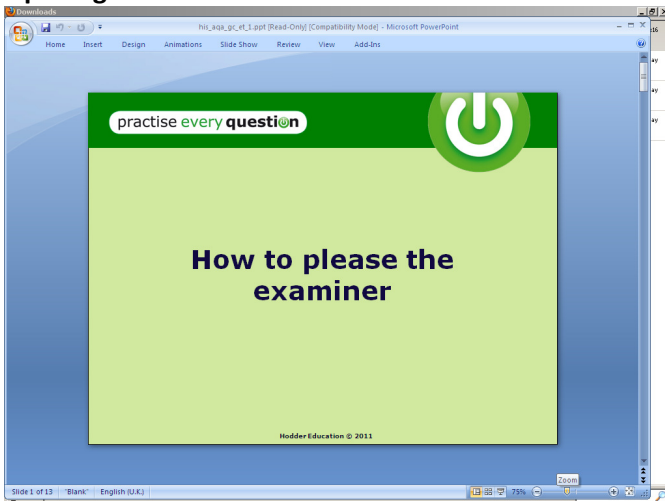

## Select your product

First choose the product you want to explore, from the drop-down menu at the top.

The screen will automatically refresh with the **exam technique** resources available to you.

## Opening resources

Click on the resource name to open the file.

This will launch the relevant program and open the resource in a new window. This requires you to have access to the program, whether this is Microsoft PowerPoint, Word or other commonly available software.

The **exam technique** documents may be freely circulated within the subscribing institution only.
